### Scope and Content

This series contains the original applications and re-admissions for the Missouri Veterans Home (St. James). Almost all early applications are missing up to #1300. As such, it is an incomplete list of residents at the home. However, information on early residents can be found in the partially indexed series *Inmate Registers*. After #1300, only an occasional application is missing in this series.

Although application numbers were assigned when admitted, and hence the applications should be chronological as well as numerical order, in actual fact, the applications are dated quite a bit later. For instance, Alfred Ackley, the first man for which we have an application, was first admitted in 1902 according to the *Inmate Register* but the application is dated 1929. If this was an application for re-admission, it would be understandable, but the application is not headed such, though it may be one by default.

### Index

Since the container listing is in application number order rather than alphabetical by surname, we have provided the following index. Numbers are to the page in this finding aid where the name appears.
