HISTORICAL AND BIOGRAPHICAL NOTES

The Missouri Atomic Energy Commission, a joint legislative committee, was established by Senate Bill 6 of the 70th General Assembly in 1959. It was authorized “to study and advise the governor and the general assembly (1) on the progress and state of nuclear energy and (2) of the need for legislation in the field of nuclear energy.” (Biennial Report, 1963) By Senate Bill 563 in 1992, the commission was rebranded the Commission on Energy under the Southern States Energy Compact with broader responsibilities than atomic energy.
