

Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 20—Clean Water Commission
Chapter 7—Water Quality

Mine Dewatering Water

ORDER OF RULEMAKING

By the authority vested in the Missouri Clean Water Commission under section 644.026, RSMo Supp. 1999, the commission hereby amends a rule as follows:

10 CSR 20-7.015 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on February 1, 2000 (25 MoReg 264–268). The section with changes is reprinted here. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Comments were received regarding combined sewer overflows, L1 Lakes, and mine dewatering water.

Combined Sewer Overflows

COMMENT: One comment supported the change to this provision and further recommended that the commission consider changes related to wet weather wastewater treatment facilities discharges as well. (City of Independence; similar comment from the City of Kansas City)

RESPONSE: No changes are proposed in the current rulemaking. The commission may consider other changes related to wet weather flows in future rulemakings.

COMMENT: WPCP staff noted that the proposed deletions unintentionally removed portions that address requirements for storm water clarifiers at wastewater treatment facilities.

RESPONSE AND EXPLANATION OF CHANGE: The proposed rulemaking was intended to address situations at combined sewer overflows and not change requirements related to storm water clarifiers at wastewater treatment facilities. The language has been modified accordingly.

L1 Lakes

COMMENT: One comment questioned whether the rule should specifically exempt permitted land disturbance activities within drinking water lake watersheds. (Missouri Department of Transportation)

RESPONSE: The WPCP recognizes that this rule predates the requirements of storm water permitting, and thus many sections include provisions that may need modification under the assumption that the term “wastewater” now includes storm water runoff. Rather than including a specific exemption here, the program believes it is preferable to address all of the storm water permitting issues throughout the rule. It is, therefore, recommended to make no change here, but to explore all of the changes that will be needed to address storm water permitting, including the federal Phase II storm water requirements that must be incorporated into Missouri rules in the next few years.

COMMENT: One comment questioned whether no-discharge agricultural facilities would be excluded by this rule. (Premium Standard Farms)

RESPONSE: No changes are anticipated for the permitting of agricultural, no-discharge facilities under this proposed rulemaking. No changes to the proposed rulemaking are recommended based upon this comment.

COMMENT: One comment stated that mines must be located where there’s a mineral deposit to be mined. This is the most promising place in the United States for finding a mineral deposit large enough and rich enough to justify opening a new mine. (The Doe Run Company)

RESPONSE: The WPCP has no information related to the prospects for finding economically recoverable deposits in this area as that information is held confidential by the industry. With regard to this specific location, the Water Pollution Control Program would note that these watersheds are the only waters in Missouri that have received federal designation for their high quality and high value. The Current River and Jacks Fork became the first federally designated waters in the nation in 1964, and the Eleven Point River followed four years later. One other water (Gasconade River) was studied for federal designation, but was not included in this highly prized group of waters. No change was made as a result of this comment.

COMMENT: One comment stated that water from closed lead mines is utilized as drinking water. (The Doe Run Company)

RESPONSE: The Water Pollution Control Program notes that there are different standards applicable to drinking water supplies and surface waters, differences in water from closed mines and active mines, and also that these mine waters have higher lead contents than contained in waters of these rivers. No change was made as a result of this comment.

COMMENT: One comment stated that any new mine/mill operation would be constructed to be a no-discharge of process water facility. (The Doe Run Company)

RESPONSE: The WPCP notes that under federal definitions mine dewatering water is process water as it comes in contact with metallic ores. No change was made as a result of this comment.

COMMENT: One comment stated that existing regulations will protect water quality if a mining operation is ever located in these watersheds. (The Doe Run Company)

RESPONSE: The WPCP notes that these same regulations have failed to eliminate creation of water quality problems in other mining areas. No change was made as a result of this comment.

COMMENT: One comment stated that the proposed amendment has the effect of zoning mining out of these drainage areas; many other industries are already zoned out. (The Doe Run Company)

RESPONSE: The WPCP notes the powers of zoning are granted to local governments which may exercise them as they deem appropriate; the commission on the other hand is charged to effect regulations that protect water quality. This includes the authority to adopt regulations to protect the special attributes of particular waters. No change was made as a result of this comment.

COMMENT: One comment stated that the commission has the authority to regulate and control discharges, not the authority to prohibit them. (The Doe Run Company)

RESPONSE: The Water Pollution Control Program notes that the law provides the authority to deny a permit, thus prohibiting a discharge, if the proposed discharge will not comply with water quality standards or other requirements (Chapter 644.051.3). Precluding permits that would be denied as a process of rulemaking is administratively more efficient than denying applications individually. In addition, it avoids costs on the part of applicants and any expectations on the part of applicants that permits may be issued. The commission has previously determined that certain other waters should not receive any wastewater discharges for reasons other than those considered here (see 10 CSR 20-7.015(5)). No change was made as a result of this comment.

COMMENT: One comment stated that the public cost fiscal note is incorrect in that increased jobs and taxes provided by a mine would provide much more than \$500. (The Doe Run Company)

RESPONSE: The Water Pollution Control Program agrees that local governments would be the beneficiary of local increased jobs and taxes were a mine to be built. However, there is no plan to construct a mine, and this statement is, therefore, only speculation. Further, the comment does not address the potential damage to the tourism and recreation economies of the watersheds, which may well be significantly damaged if these high quality waters become impacted by mining operations as others already have. No change was made as a result of this comment.

COMMENT: One comment stated that the private cost fiscal note is incorrect in that there will be use from the information from exploratory holes already drilled. (The Doe Run Company)

RESPONSE: The Water Pollution Control Program has no information related to the information gleaned from the exploratory holes as that information is held confidential by the industry. The program can conclude only that the industry has some knowledge of the area and has no current applications for permits to conduct mining. Exploratory drilling is, of course, a cost of conducting this business, and the probability of drilling exploratory holes without finding mineable deposits is one of the risks involved. No change was made as a result of this comment.

COMMENT: Many comments were received in support of the proposed change.

RESPONSE: No changes to the proposed rulemaking were made based upon these comments.

Methods

COMMENT: No comments were received on this proposed change.

RESPONSE: The proposed language remains unchanged.

pH

COMMENT: No comments were received on this proposed change.

RESPONSE: The proposed language remains unchanged.

10 CSR 20-7.015 Effluent Regulations

(2) Effluent Limitations for the Missouri and Mississippi Rivers.

(B) Discharges from wastewater treatment facilities which receive primarily domestic waste or from publicly-owned treatment works (POTWs) shall undergo treatment sufficient to conform to the following limitations:

1. Biochemical Oxygen Demand₅ (BOD₅) and nonfilterable residues (NFRs) equal to or less than a monthly average of thirty milligrams per liter (30 mg/l) and a weekly average of forty-five milligrams per liter (45 mg/l);

2. pH shall be maintained in the range from six to nine (6-9) standard units;

3. Exceptions to paragraphs (2)(B)1. and 2. are as follows:

A. If the facility is a wastewater lagoon, the NFRs shall be equal to or less than a monthly average of eighty (80) mg/l and a weekly average of one hundred twenty (120) mg/l and the pH shall be maintained above 6.0, and the BOD₅ shall be equal to or less than a monthly average of forty-five (45) mg/l and a weekly average of sixty-five (65) mg/l;

B. If the facility is a trickling filter plant the BOD₅ and NFRs shall be equal to or less than a monthly average of forty-five (45) mg/l and a weekly average of sixty-five (65) mg/l;

C. Where the use of effluent limitations set forward in this section is known or expected to produce an effluent that will endanger or violate water quality, the department will set specific

effluent limitations for individual dischargers to protect the water quality of the receiving streams. When a waste load allocation or a total maximum daily load study is conducted for a stream or stream segment, all permits for discharges in the study area shall be modified to reflect the limits established in the study;

D. The department may require more stringent limitations than authorized in subsections (3)(A) and (B) under the following conditions:

(I) If the facility is an existing facility, the department may set the BOD₅ and NFR limits based upon an analysis of the past performance, rounded up to the next five (5) mg/l range; and

(II) If the facility is a new facility, the department may set the BOD₅ and NFR limits based upon the design capabilities of the plant considering geographical and climatic conditions;

(a) A design capability study has been conducted for new lagoon systems. The study reflects that the effluent limitations should be BOD₅ equal to or less than a monthly average of forty-five (45) mg/l, a weekly average of sixty-five (65) mg/l, NFRs equal to or less than a monthly average of seventy (70) mg/l and a weekly average of one hundred ten (110) mg/l.

(b) A design capability study has been conducted for new trickling filter systems and the study reflects that the effluent limitations should be BOD₅ and NFRs equal to or less than a monthly average of forty (40) mg/l and a weekly average of sixty (60) mg/l; and

E. If the facility is a POTW wastewater treatment facility providing at least primary treatment during a precipitation event and discharges on a noncontinuous basis, the discharge may be allowed provided that:

(I) BOD₅ and NFRs equal to or less than a weekly average of forty-five (45) mg/l. The NFR (total suspended solids) limit may be higher than forty-five (45) mg/l for combined sewer overflow treatment devices when organic solids are demonstrated to be an insignificant fraction of total inorganic storm water generated solids, and the permittee can demonstrate that achieving a limit of forty-five (45) mg/l is not cost effective relative to water quality benefits. In these cases, an alternative total suspended solids limit would be developed.

(II) pH shall be maintained in the range from six to nine (6-9) standard units; and

(III) Only the wastewater in excess of the capacity of the noncontinuous wastewater treatment plant hydraulic capacity may be discharged;

4. Fecal coliform. Discharges to the Mississippi from the Missouri-Iowa line down to Lock and Dam 26 shall not contain more than a monthly average of four hundred (400) fecal coliform colonies per one hundred milliliters (100 ml) and a daily maximum of one thousand (1000) fecal coliform colonies per one hundred milliliters (100 ml) from April 1 to October 31. The department may waive or relax this limitation if the owner or operator of the wastewater treatment facility can demonstrate that neither health nor water quality will be endangered by failure to disinfect.

5. Sludges removed in the treatment process shall not be discharged. Sludges shall be routinely removed from the wastewater treatment facility and disposed or used in accordance with a sludge management practice approved by the department; and

6. When the wastewater treatment process causes nitrification which affects the BOD₅ reading, the permittee can petition the department to substitute carbonaceous BOD₅ in lieu of regular BOD₅ testing. If the department concurs that nitrification is occurring, the department will set a carbonaceous BOD₅ at five (5) mg/l less than the regular BOD₅ in the operating permit.

(8) Effluent Limitations for All Waters, Except Those in Paragraphs (1)(A)1.-6.

(B) Discharges from wastewater treatment facilities which receive primarily domestic waste or POTWs shall undergo treatment sufficient to conform to the following limitations:

1. BOD₅ and NFRs equal to or less than a monthly average of thirty (30) mg/l and a weekly average of forty-five (45) mg/l;

2. pH shall be maintained in the range from six to nine (6-9) standard units;

3. The limitations of paragraphs (8)(B)1. and 2. will be effective unless a water quality impact study has been conducted by the department, or conducted by the permittee and approved by the department, showing that alternate limitation will not cause violations of the Water Quality Standards or impairment of the uses in the standards. When a water quality impact study has been completed to the satisfaction of the department, the following alternate limitation may be allowed:

A. If the facility is a wastewater lagoon, the NFRs shall be equal to or less than a monthly average of eighty (80) mg/l and a weekly average of one hundred twenty (120) mg/l and the pH shall be maintained above 6.0 and the BOD₅ shall be equal to or less than a monthly average of forty-five (45) mg/l and a weekly average of sixty-five (65) mg/l;

B. If the facility is a trickling filter plant, the BOD₅ and NFRs shall be equal to or less than a monthly average of forty-five (45) mg/l and a weekly average of sixty-five (65) mg/l;

C. Where the use of effluent limitations set forth in section (8) is known or expected to produce an effluent that will endanger water quality, the department will set specific effluent limitations for individual dischargers to protect the water quality of the receiving streams. When a waste load allocation study is conducted for a stream or stream segment, all permits for discharges in the study area shall be modified to reflect the limits established in the waste load allocation study;

D. The department may require more stringent limitations than authorized in subsections (3)(A) and (B) under the following conditions:

(I) If the facility is an existing facility, the department may set the BOD₅ and NFR limits based upon an analysis of the past performance, rounded up to the next five (5) mg/l range; and

(II) If the facility is a new facility, the department may set the BOD₅ and NFR limits based upon the design capabilities of the plant considering geographical and climatic conditions;

(a) A design capability study has been conducted for new lagoon systems. The study reflects that the effluent limitations should be BOD₅ equal to or less than a monthly average of forty-five (45) mg/l, a weekly average of sixty-five (65) mg/l, NFRs equal to or less than a monthly average of seventy (70) mg/l and a weekly average of one hundred ten (110) mg/l;

(b) A design capability study has been conducted for new trickling filter systems and the study reflects that the effluent limitations should be BOD₅ and NFR equal to or less than a monthly average of forty (40) mg/l and a weekly average of sixty (60) mg/l; and

E. If the facility is a POTW wastewater treatment facility providing at least primary treatment during a precipitation event and discharges on a noncontinuous basis, the discharge may be allowed provided that:

(I) BOD₅ and NFRs equal to or less than a weekly average of forty-five (45) mg/l. The NFR (total suspended solids) limit may be higher than forty-five (45) mg/l for combined sewer overflow treatment devices when organic solids are demonstrated to be an insignificant fraction of total inorganic storm water generated solids, and the permittee can demonstrate that achieving a limit of forty-five (45) mg/l is not cost effective relative to water quality benefits. In these cases, an alternative total suspended solids limit would be developed.

(II) pH shall be maintained in the range from six to nine (6-9) units; and

(III) Only the wastewater in excess of the capacity of the noncontinuous wastewater treatment plant hydraulic capacity may be discharged;

4. Fecal coliform.

A. Discharges to streams identified as whole body contact areas, discharges within two (2) miles upstream of these areas and discharges to streams with a seven (7)-day Q₁₀ flow of zero (0) in metropolitan areas where the stream is readily accessible to the public shall not contain more than a monthly average of four hundred (400) fecal coliform colonies per one hundred milliliters (100 ml) and a daily maximum of one thousand (1000) fecal coliform colonies per one hundred milliliters (100 ml) from April 1 to October 31. The department may waive or relax this limitation if the owner or operator of the wastewater treatment facility can demonstrate that neither health nor water quality will be endangered by failure to disinfect.

B. Where chlorine is used as a disinfectant, the effluent shall be dechlorinated except when the discharge is—

(I) Into an unclassified stream at least one (1) mile from a Water Quality Standards classified stream; or

(II) Into a flowing stream where the seven (7)-day Q₁₀ flow is equal to or greater than fifty (50) times the design effluent flow;

5. Sludges removed in the treatment process shall not be discharged. Sludges shall be routinely removed from the wastewater treatment facility and disposed of or used in accordance with a sludge management practice approved by the department; and

6. When the wastewater treatment process causes nitrification which affects the BOD₅ reading, the permittee can petition the department to substitute carbonaceous BOD₅ in lieu of regular BOD₅ testing. If the department concurs that nitrification is occurring, the department will set a carbonaceous BOD₅ at five (5) mg/l less than the regular BOD₅ in the operating permit.

Title 10—DEPARTMENT OF NATURAL RESOURCES Division 45—Metallic Minerals Waste Management Chapter 1—Organization

ORDER OF RULEMAKING

By the authority vested in the director of the Missouri Department of Natural Resources under section 444.355, RSMo 1994, the director amends a rule as follows:

10 CSR 45-1.010 General Organization is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on April 17, 2000 (25 MoReg 978). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No comments were received.

**Title 13—DEPARTMENT OF SOCIAL SERVICES
Division 30—Child Support Enforcement
Chapter 9—Incentives**

ORDER OF RULEMAKING

By the authority vested in the director of the Missouri Department of Social Services, Division of Child Support Enforcement under section 454.400.2(5), RSMo Supp. 1999, the director adopts a rule as follows:

13 CSR 30-9.010 Incentives is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on March 15, 2000 (25 MoReg 674–677). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The department received two written comments during the official comment period, which ended April 14, 2000. One comment was from the Office of the

Prosecutor of Lafayette County and the second was from the Office of the Prosecutor of Greene County. Their comments as well as the department's responses are listed below.

COMMENT: Both commenters objected to the use of 1999 as a base year for expenses because it would be an unwarranted restriction on county budget decisions. Their concerns included that the base year would not take into account inflation, cost of living raises and step raises given to other county employees, and changes in county benefit packages.

RESPONSE: The use of 1999 as a base year for expenses is being used as the initial base year. Each year thereafter, the previously approved year's expenses will be used as the base year. This should help alleviate rising costs of inflation, salaries, and benefit packages. The division is not amending the language of the rule as a result of this comment.

COMMENT: Both commenters suggested that the rule automatically allow increased expenditures up to a certain specified percent over the base year figure without approval by the division.

RESPONSE: It is impossible to determine what future revenues will be generated, it is not possible to grant a blanket percentage increase for each county budget annually. Allowing counties blanket approval to grant pay raises, cost of living raises, and increased benefit packages or other expenditures would create inequities among the counties and would result in inequitable disbursement of available funds. The division is not amending the language of the rule as a result of this comment.

COMMENT: There was a concern that due to the rural nature of the prosecutor's office, the base year might not represent a typical year.

RESPONSE: Since the base year is updated each year to the last year's budget, this should not be a problem. However, if the county does in fact have an unusual or atypical year, they could request in writing additional monies for their budget in the upcoming year due to the unusual situation. The division is not amending the language of the rule as a result of this comment.

COMMENT: The second commenter expressed concern that there was no appeal process. If the division failed to approve a budget increase, they suggested counties be allowed to appeal to the Prosecuting Attorney's advisory board if the division failed to approve an increase in their budget. There was also concern that after the division reimbursed the counties; the division would be allowed to keep the excess incentive monies to use, as they deemed appropriate. It was a further concern that the division would withhold any budget increases over the base year 1999 to promote their own agendas. This commenter wanted the counties to have veto power in how the division would spend the excess incentive monies.

RESPONSE: Ultimately, it is the division's responsibility to administer the program and the responsibility for this cannot be delegated to another entity. The division is not amending the language of the rule as a result of this comment.

Title 19—DEPARTMENT OF HEALTH
Division 40—Division of Maternal, Child and Family Health
Chapter 3—The Sudden Infant Death Syndrome (SIDS) Program

ORDER OF RULEMAKING

By the authority vested in the Department of Health under section 194.117, RSMo Supp. 1999, the director hereby amends a rule as follows:

19 CSR 40-3.010 Administration of the SIDS Program is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on March 15, 2000 (25 MoReg 694-695). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No comments were received.

This section may contain notice of hearings, correction notices, public information notices, rule action notices, statements of actual costs and other items required to be published in the *Missouri Register* by law.

**Title 4—DEPARTMENT OF ECONOMIC DEVELOPMENT
Division 100—Division of Credit Unions**

ACTIONS TAKEN ON APPLICATIONS FOR NEW GROUPS OR GEOGRAPHIC AREAS

Pursuant to section 370.081(4), RSMo Supp. 1999, the director of the Missouri Division of Credit Unions is required to cause notice to be published that the director has either granted or rejected applications from the following credit unions to add new groups or geographic areas to their membership and state the reasons for taking these actions.

The following application has been granted. This credit union has met the criteria applied to determine if additional groups may be included in the membership of an existing credit union and have the immediate ability to serve the proposed new groups or geographic areas. The proposed new groups or geographic areas meet the requirements established pursuant to 370.080(2), RSMo Supp. 1999.

Credit Union	Proposed New Group or Geographic Area
West Community Credit Union 2345 S. Brentwood Boulevard St. Louis, MO 63144	Anyone living or working in the cities of Overland (63114), Olivette (63132), Crestwood (63126), Sunset Hills (63127), Des Peres (63131), Creve Coeur (63141), Ballwin (63011), Maryland Heights (63146 and 63043), Chesterfield (63017 and 63005) and Manchester (63021).

**Title 19—DEPARTMENT OF HEALTH
Division 60—Missouri Health Facilities Review Committee
Chapter 50—Certificate of Need Program**

APPLICATION REVIEW SCHEDULE

DATE FILED:
APPLICATION PROJECT NO. &
NAME/COST & DESCRIPTION/
CITY & COUNTY

- 1.) Trust Administrative Services (Assistive Technology), supplied by Missouri Family Trust.
- 2.) Proprietary Maintenance, supplied by OPEX Corporation

Joyce Murphy, CPPO,
Director of Purchasing

Rule Changes Since Update to Code of State Regulations

This cumulative table gives you the latest status of rules. It contains citations of rulemakings adopted or proposed after deadline for the monthly Update Service to the *Code of State Regulations*, citations are to volume and page number in the *Missouri Register*, except for material in this issue. The first number in the table cite refers to the volume number or the publication year—23 (1998), 24 (1999) and 25 (2000). MoReg refers to *Missouri Register* and the numbers refer to a specific *Register* page, R indicates a rescission, W indicates a withdrawal, S indicates a statement of actual cost, T indicates an order terminating a rule, N.A. indicates not applicable and RUC indicates a rule under consideration.
