N. B.—Every item of information should be carefully supplied. AGE should be stated EXACTLY. PHYSICIANS should state CAUSE OF DEATH in plain terms, so that it may be properly classified. Exact statement of OCCUPATION is very important.

MISSOURI STATE BOARD OF HEALTH
BUREAU OF VITAL STATISTICS
CERTIFICATE OF DEATH

15302

1. PLACE OF DEATH
County: Dunklin — Registration District No. 289 — File No.
Township: Cotton Hill — Primary Registration District No. 5707 — Registered No. 20
City (No. , St. Ward)

2. FULL NAME: Gilbert Coleman Tyler
(a) Residence. No. St., Ward. (If nonresident give city or town and State)
(Usual place of abode)
Length of residence in city or town where death occurred yrs. mos. ds. How long in U.S., if of foreign birth? yrs. mos. ds.

PERSONAL AND STATISTICAL PARTICULARS

3. SEX: Male
4. COLOR OR RACE: White
5. SINGLE, MARRIED, WIDOWED OR DIVORCED (write the word): Single

5A. IF MARRIED, WIDOWED, OR DIVORCED
HUSBAND OF
(OR) WIFE OF

6. DATE OF BIRTH (MONTH, DAY AND YEAR): Aug. 3 - 1898

7. AGE: Years 23 | Months 9 | Days 20 | If LESS than 1 day, hrs. or min.

8. OCCUPATION OF DECEASED
(a) Trade, profession, or particular kind of work: Mechanic 23A 24A
(b) General nature of industry, business, or establishment in which employed (or employer): automobile 30
(c) Name of employer

9. BIRTHPLACE (CITY OR TOWN)
(STATE OR COUNTRY): Defiance, Mo.

PARENTS
10. NAME OF FATHER: S. C. Tyler
11. BIRTHPLACE OF FATHER (CITY OR TOWN)
(STATE OR COUNTRY): Hamburg, Mo.
12. MAIDEN NAME OF MOTHER: Mary Coleman
13. BIRTHPLACE OF MOTHER (CITY OR TOWN)
(STATE OR COUNTRY): Poristell Mo.

14. INFORMANT: S C Tyler
(Address): Malden Mo.

15. FILED: 5/24, 1922 — S B Mitchell, REGISTRAR

MEDICAL CERTIFICATE OF DEATH

16. DATE OF DEATH (MONTH, DAY AND YEAR): May 24 1922

17. I HEREBY CERTIFY, That I attended deceased from , 19, to , 19, that I last saw h. alive on , 19, and that death occurred, on the date stated above, at 7 a.m.

THE CAUSE OF DEATH* WAS AS FOLLOWS:

Encephalitis - Probably Tuberculous in Nature -
(duration) About yrs. 24 mos. ds.

CONTRIBUTORY (SECONDARY) See Appended Sheet -
Tuberculosis (duration) 2 yrs. 8 mos. ds.

18. WHERE WAS DISEASE CONTRACTED
IF NOT AT PLACE OF DEATH Possibly in U. S. Service in A.E.F.
DID AN OPERATION PRECEDE DEATH? Yes DATE OF March 8-1922
WAS THERE AN AUTOPSY? No
WHAT TEST CONFIRMED DIAGNOSIS? See Appended Sheet -
(Signed) Homer Dean, M. D.

*State the DISEASE CAUSING DEATH, or in deaths from VIOLENT CAUSES, state (1) MEANS AND NATURE OF INJURY, and (2) whether ACCIDENTAL, SUICIDAL, or HOMICIDAL. (See reverse side for additional space.)

19. PLACE OF BURIAL, CREMATION, OR REMOVAL: Malden Mo. — DATE OF BURIAL: 5-25 1922
20. UNDERTAKER: H. Lilcraig — ADDRESS: Malden

Revised United States Standard Certificate of Death

(Approved by U. S. Census and American Public Health Association.)

Statement of Occupation.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., *Farmer* or *Planter*, *Physician*, *Compositor*, *Architect*, *Locomotive Engineer*, *Civil Engineer*, *Stationary Fireman*, etc. But in many cases, especially in industrial employments, it is necessary to know (*a*) the kind of work and also (*b*) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: (*a*) *Spinner*, (*b*) *Cotton mill;* (*a*) *Salesman*, (*b*) *Grocery;* (*a*) *Foreman*, (*b*) *Automobile factory*. The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer," etc., without more precise specification, as *Day laborer*, *Farm laborer*, *Laborer—Coal mine*, etc. Women at home, who are engaged in the duties of the household only (not paid *Housekeepers* who receive a definite salary), may be entered as *Housewife*, *Housework* or *At home*, and children, not gainfully employed, as *At school* or *At home*. Care should be taken to report specifically the occupations of persons engaged in domestic service for wages, as *Servant*, *Cook*, *Housemaid*, etc. If the occupation has been changed or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business, that fact may be indicated thus: *Farmer* (*retired*, 6 *yrs.*) For persons who have no occupation whatever, write *None*.

Statement of Cause of Death.—Name, first, the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: *Cerebrospinal fever* (the only definite synonym is "Epidemic cerebrospinal meningitis"); *Diphtheria* (avoid use of "Croup"); *Typhoid fever* (never report "Typhoid pneumonia"); *Lobar pneumonia; Bronchopneumonia* ("Pneumonia," unqualified, is indefinite); *Tuberculosis of lungs, meninges, peritoneum*, etc., *Carcinoma, Sarcoma*, etc., of . . . . . (name origin; "Cancer" is less definite; avoid use of "Tumor" for malignant neoplasma); *Measles: Whooping cough; Chronic valvular heart disease; Chronic interstitial nephritis*, etc. The contributory (secondary or intercurrent) affection need not be stated unless important. Example: *Measles* (disease causing death), 29 *ds.*; *Bronchopneumonia* (secondary), 10 *ds.* Never report mere symptoms or terminal conditions, such as "Asthenia," "Anemia" (merely symptomatic), "Atrophy," "Collapse," "Coma," "Convulsions," "Debility" ("Congenital," "Senile," etc.), "Dropsy," "Exhaustion," "Heart failure," "Hemorrhage," "Inanition," "Marasmus," "Old age," "Shock," "Uremia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify all diseases resulting from childbirth or miscarriage, as "PUERPERAL *septicemia*," "PUERPERAL *peritonitis*," etc. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, or HOMICIDAL, or as *probably* such, if impossible to determine definitely. Examples: *Accidental drowning; struck by railway train—accident; Revolver wound of head—homicide; Poisoned by carbolic acid—probably suicide.* The nature of the injury, as fracture of skull, and consequences (e. g., *sepsis, tetanus*), may be stated under the head of "Contributory." (Recommendations on statement of cause of death approved by Committee on Nomenclature of the American Medical Association.)

NOTE.—Individual offices may add to above list of undesirable terms and refuse to accept certificates containing them. Thus the form in use in New York City states: "Certificates will be returned for additional information which give any of the following diseases, without explanation, as the sole cause of death: Abortion, cellulitis, childbirth, convulsions, hemorrhage, gangrene, gastritis, erysipelas, meningitis, miscarriage, necrosis, peritonitis, phlebitis, pyemia, septicemia, tetanus." But general adoption of the minimum list suggested will work vast improvement, and its scope can be extended at a later date.

ADDITIONAL SPACE FOR FURTHER STATEMENTS BY PHYSICIAN.

HOMER BEALL, M. D.
MALDEN, MO.

Malden, Missouri,
June 3rd. 1922.,

To Bureau of Vital Statistics;

Continuation of the cause of death of Gilbert C. Tyler which occurred on March 24th, 1922.

What was the contributary cause of death ?
1.Tuberculosis;
(a) Of right testicle,began about Aug. 1919 operated,testicle removed,Dec.1920.Labratory diagnosis confirmed clinical diagnosis,of Tuberculosis.

(b) Of left kidney,time of onset not known but kidney removed March 8th. 1922,Labratory confirming clinical diagnosis of tuberculosis.

(c)Of left testicle,a diagnosis of tuberculosis of this organ was made about the first of May 1922 no operation was made and no labratory examination was made.

(d) Some pathalogical condition developed in the knee and anterior two-thirds of the posterior limb of the internal capsule with involvment of the third frontal convolution of the left side of the brain-evidenced by hemiplegia of right side with aphasia,diagnosed,clinically as tubercular, no labratory search made.

2. Septic infection involving scar and kidney bed of left side.Staphylococci were the only micro-organisms found.

Homer Beall (M.D)

Tuberculosis of the right Testicle and L. Kidney
