## HOW TO CITE RULES AND RSMO

### RULES

The rules are codified in the *Code of State Regulations* in this system–

<b>Title</b>	<b>CSR</b>	<b>Division</b>	<b>Chapter</b>	<b>Rule</b>
3 Department	<i>Code of State Regulations</i>	10- Agency division	4 General area regulated	115 Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation; for example, 3 CSR 10-4.115, NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

### ***Code and Register on the Internet***

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is [sos.mo.gov/adrules/csr/csr](http://sos.mo.gov/adrules/csr/csr)

The *Register* address is [sos.mo.gov/adrules/moreg/moreg](http://sos.mo.gov/adrules/moreg/moreg)

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

Rules appearing under this heading are filed under the authority granted by section 536.025, RSMo. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety, or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the Missouri and the United States Constitutions; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons, and findings which support its conclusion that there is an immediate danger to the public health, safety, or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

Rules filed as emergency rules may be effective not less than ten (10) business days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the Missouri Register as soon as practicable.

All emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

**TITLE 13 – DEPARTMENT OF SOCIAL SERVICES  
Division 70 – MO HealthNet Division  
Chapter 20 – Pharmacy Program**

**EMERGENCY AMENDMENT**

**13 CSR 70-20.075 340B Drug Pricing Program.** The division is amending sections (1)–(5), and adding new section (6).

*PURPOSE: This emergency amendment simplifies and clarifies the language of the current rule and establishes a carve-out list of medications that are not reimbursable if purchased through the 340B program.*

*EMERGENCY STATEMENT: The emergency amendment informs the public that MO HealthNet Division (MHD) is excluding certain outpatient drugs from reimbursement through the 340B Program. This emergency amendment is necessary to protect governmental interest to MHD as it will realize a three-million-dollar savings during the time this emergency is effective, which will contribute to a financially sustainable Medicaid program in Missouri. MHD will begin to cover drugs approved by the FDA for the treatment of obesity in January 2025 and will start entering into supplemental rebate contracts for those drugs and value-based contracts for cell and gene therapies. When providers purchase these medications through the 340B program, federal law prohibits MHD from collecting supplemental rebates, causing MHD to pay a higher net cost. MHD will not be able to*

*collect supplemental rebates for these outpatient drugs without this emergency amendment. As a result, MHD finds a compelling governmental interest, which requires this emergency action. A proposed amendment covering this same material is published in this issue of the Missouri Register. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended by the Missouri and United States Constitutions. MHD believes that this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed November 21, 2024, becomes effective December 9, 2024, and expires June 6, 2025.*

(1) [340B-c]Covered entities that choose to carve-in Medicaid must provide the Health Resources and Services Administration (HRSA) with their National Provider Identification (NPI) and their MO HealthNet Division (MHD) provider number for each site that carves in for inclusion in the HRSA Medicaid Exclusion File. [The] MHD requires the [MO HealthNet] MHD provider number to be included on the Medicaid Exclusion File to identify providers that carve-in Medicaid and to prevent duplicate discounts. **A duplicate discount is defined as a covered entity receiving a discounted drug through the 340B program from the manufacturer, and MHD receives a rebate through the Medicaid Drug Rebate Program from the manufacturer for the same claim. Covered entity is defined in section 376.414.1(2), RSMo.**

(2) [340B-c]Covered entities [are required to] must identify 340B-purchased drugs [at the claims level the following codes:] using the Submission Clarification Code or modifier code on each claim that was 340B-purchased.

[(A) Point-of-sale pharmacy claims: Submission Clarification Code (SCC) 20; and

(B) Medical and outpatient claims: Modifier JG or TB.]

(3) Failure to include the appropriate [submission clarification code or modifier] identifier on a 340B-purchased drug will result in the MHD collecting a rebate on the claim [and], resulting in a potential duplicate discount. A duplicate discount may subject the covered entity to audit penalties. [The] MHD will deny claims identified as 340B purchased drugs at the claim level from providers who [submit an SCC of 20 or 340B modifier but have not notified] have yet to notify HRSA of carve-in status.

(4) [Effective July 1, 2021, r]Reimbursement for 340B-identified covered drugs for 340B providers as defined [by 42 U.S.C. 256b(a) (4) and 42 U.S.C. 1396r-8(a)(5)(B)] in Section 376.414.1(2), RSMo who carve-in for Medicaid will be determined by applying the following method:

(A) MHD will reimburse 340B-purchased drugs dispensed by pharmacy providers [will be reimbursed] at their actual acquisition cost, up to the 340B Maximum Allowable Cost (340B MAC) (calculated ceiling price) plus a professional dispensing fee. Covered entities [are required to] must bill no more than their actual acquisition cost plus the professional dispensing fee.

1. [The] MHD defines the 340B MAC (calculated ceiling price) [is defined] as the Average Manufacturer Price (AMP) minus Unit Rebate Agreement (URA) as reported by the Centers for Medicare & Medicaid (CMS) quarterly;

2. [Actual] MHD defines actual acquisition cost [is defined] as the invoice cost for the [NDC] National Drug Code (NDC) per billing unit. This does not include timely pay discounts or discounts paid as a rebate on a separate invoice for volume-

based purchases; and

**3. MHD calculates the professional dispensing fee according to 13 CSR 70-20.060; and**

(B) **MHD will reimburse** *[P]*physician-administered drugs purchased through the 340B program *[will be reimbursed]* at the lesser of the physician-administered 340B MAC or the actual acquisition cost submitted by the provider. *[A]* **MHD does not apply** a professional dispensing fee *[is not applied]* to physician-administered drugs.

1. *[The Physician-Administered 340B MAC is calculated by adding six percent (6%), up to six hundred dollars (\$600), to the calculated ceiling price]* **MHD adds six percent (6%), up to six hundred dollars (\$600), to the 340B MAC to calculate the physician-administered 340B MAC.**

(5) *[340B contract pharmacies are not covered under this policy and must carve-out Medicaid from their 340B operation unless MHD approves an exception]* **MHD does not allow 340B contract pharmacies to carve-in under this policy.**

(6) **MHD may carve-out certain medications and categories of medications from 340B participation for MHD reimbursement. Medications subject to the carve-out will be reimbursed according to 13 CSR 70-20.070. The following medications and categories of medications are carved-out of reimbursement through the 340B program:**

(A) **Drugs approved by the FDA for the treatment of obesity; and**

(B) **Cell and Gene Therapies.**

*AUTHORITY: sections [208.153,] 208.201, and 660.017, RSMo 2016, and section 208.153, RSMo Supp. 2024. Emergency rule filed April 26, 2021, effective July 1, 2021, expired Feb. 24, 2022. 6-month impact for duration of Emergency Regulation	\$1,048,079.50

**IV. ASSUMPTIONS**

**Assumptions for both Cell and Gene Therapy and Anti-Obesity estimates**

- The estimated increase in annual expenditures by Covered Entities will be offset by an equal increase in claims payment by MHD, resulting in no net change in profit for the Covered Entity. Savings to the state are realized through increased rebate revenue, which more than offset the increased reimbursement to the Covered Entities.
- Covered Entities bill MHD for 340B-purchased, non-physician-administered medications at the actual acquisition cost.
- Covered Entities have established processes for purchasing 340B and non-340B medications and billing MHD with the appropriate claim level identifier.
  - During SFY24, Covered Entities utilized non-340B stock for MHD participants 23.72% of the time based on paid claims history.
- MHD reimburses providers based on actual acquisition cost reimbursement methodology. If a Covered Entity purchases a medication outside of the 340B program, MHD will reimburse at the higher, non-340B rate, resulting in a higher expenditure by the Covered Entity and with a higher reimbursement by MHD.
- The supplemental rebate that the state would forgo for each 340B claim:
  - Based on the confidential and propriety nature of the supplemental rebate amounts, MHD utilized the overall weighted average of supplemental rebates for drugs from supplemental rebate agreements in place for April 1, 2024 – June 30, 2024, and actual utilization during the quarter, 32.2% of the total cost per claim.

- To calculate the anticipated impact to public facilities, MHD utilized percentage of 340B claims during SFY24 that were billed to MO HealthNet from public Covered Entities (18%)

**Cell and Gene Therapy assumptions**

- Covered Entities are purchasing cell and gene therapies at the ceiling price when purchased through the 340B program.
- Estimates are based on SFY2024 MHD paid claims data and pricing on the date of service.

**Anti-Obesity assumptions**

MHD does not currently cover drugs approved by the FDA for anti-obesity. MHD utilized the overall average federal rebate percentage to estimate the ceiling price paid by Covered Entities for anti-obesity agents. The federal rebate amounts are confidential and proprietary pursuant to Section 1927 of the Social Security Act (42 U.S.C. § 1396r-8). MHD calculated an anticipated fiscal impact based on the following:

- The estimated number of participants who would qualify for anti-obesity treatment.
- The current utilization of drugs with the same mechanism of action as the anti-obesity treatments.
- The anticipated percentage of participants who would seek treatment, based on a review of other State Medicaid Programs, discussions with MHD providers, and market analysis.
- The percentage of the participants who would receive the anti-obesity drug through a Covered Entity with 340B stock based on the percentage of overall MHD pharmacy claims that are billed as 340B stock by covered entities (10.57% during April 1, 2024 – June 30, 2024).
- Federal rebate to calculate the ceiling price for each 340B claim.
  - Based on the confidential and proprietary nature of the federal rebate amounts, MHD utilized the overall average of federal rebates for drugs in place from April 1, 2024 to June 30, 2024, and actual utilization during the quarter, 53.04% of the total cost per claim.

#### IV. ASSUMPTIONS

##### **Assumptions for both Cell and Gene Therapy and Anti-Obesity estimates**

- The estimated increase in annual expenditures by Covered Entities will be offset by an equal increase in claims payment by MHD, resulting in no net change in profit for the Covered Entity. Savings to the state are realized through increased rebate revenue, which more than offsets the increased reimbursement to the Covered Entities.

- To calculate the anticipated impact to private facilities, MHD utilized percentage of 340B claims during SFY24 that were billed to MO HealthNet from private Covered Entities (82%)

##### **Cell and Gene Therapy assumptions**

- Covered Entities are purchasing cell and gene therapies at the ceiling price when purchasing through the 340B program.
- Estimates are based on SFY2024 MO HealthNet paid claims data.

**Anti-Obesity assumptions**

MO HealthNet (MHD) does not currently cover drugs approved by the FDA for anti-obesity. MHD utilized the overall average federal rebate percentage to estimate the ceiling price paid by Covered Entities for anti-obesity agents. The federal rebate amounts are confidential and proprietary pursuant to Section 1927 of the Social Security Act (42 U.S.C. § 1396r-8).

MHD calculated an anticipated fiscal impact based on the following:

- The estimated number of participants who would qualify for anti-obesity treatment.
- The current utilization of drugs with the same mechanism of action as the anti-obesity treatments.
- The anticipated percentage of participants who would seek treatment, based on a review of other State Medicaid Programs, discussions with MHD providers, and market analysis.
- The percentage of the participants who would receive the anti-obesity drug through a Covered Entity with 340B stock based on the percentage of overall MHD pharmacy claims that are billed as 340B stock by covered entities (10.57% during April 1, 2024 – June 30, 2024).
- Federal rebate to calculate the ceiling price for each 340B claim.
  - Based on the confidential and propriety nature of the federal rebate amounts, MHD utilized the overall average of federal rebates for drugs in place from April 1, 2024, to June 30, 2024, and actual utilization during the quarter, 53.04% of the total cost per claim.

The Secretary of State shall publish all executive orders beginning January 1, 2003, pursuant to section 536.035.2, RSMo.

G. Closure. At closure of the storage area, a transporter shall remove and properly dispose of all hazardous waste and hazardous residues. For the purpose of this subparagraph, closure shall occur when the storage of hazardous wastes has not occurred, or is not expected to occur for one (1) year, or when the transporter's license lapses, whichever first occurs;

The transporter shall maintain records on wastes accepted from those generators which contain information including the type or identity of each waste, the source of each waste, and disposition of each waste. (Note: This paragraph is not intended to apply to municipal waste haulers who may unknowingly pick up small quantities of hazardous waste that may have been deposited in solid waste containers along their routes.);

(II) Hazardous waste shall be transferred between licensed transporters only; and

(III) For exports, the transporter shall also comply with the following:

**Division 25 – Hazardous Waste Management**  
**Commission**  
**Chapter 8 – Public Participation and General**  
**Procedural Requirements**

**PROPOSED AMENDMENT**

**10 CSR 25-8.124 Procedures for Decision Making.** The department is amending sections (1) – (4).

*PURPOSE: This proposed amendment updates material incorporated by reference, legal notice requirements, methods of notification to elicit public participation, and time frames for hazardous waste transport.*

(1) **The regulations set forth in 40 CFR part 124, July 1, 2024, as published by the Office of the Federal Register, National Archives and Records Administration, Superintendent of Documents, Pittsburgh, PA 15250-7954, are incorporated by reference.** Except as provided otherwise in this rule, the substitution of terms set forth in 10 CSR 25-3.260(1)(A) apply in this rule, in addition to any other modifications established in paragraph (1)(A)2. of this rule. Where conflicting rules exist in 10 CSR 25, the more stringent rules control. (Comment: This section has been organized so that Missouri requirements analogous to a particular lettered subpart in 40 CFR part 124 are set forth in the corresponding lettered subsection of section (1) of this rule. For example, the general program requirements in 40 CFR part 124 subpart A, with Missouri modifications, are found in subsection (1)(A) of this rule.)

(A) This subsection sets forth requirements that correspond to those requirements in 40 CFR part 124 subpart A.

1. Purpose and scope. This subsection contains procedures for the review, issuance, class 3 or department-initiated modification, total modification, or revocation of all permits issued pursuant to sections 260.350 through [260.434] 260.433, RSMo. This subsection also contains procedures for the denial of a permit, either in its entirety or as to the active life of a

hazardous waste management facility or unit, under 40 CFR 270.29, as incorporated in 10 CSR 25-7.270. Interim status is not a permit and is covered by specific provisions in 10 CSR 25-7.265 and 10 CSR 25-7.270. Class 1 or class 2 permit modifications, as defined in 40 CFR 270.42 as incorporated in 10 CSR 25-7.270, are not subject to the requirements of this subsection.

2. Definitions. In addition to the definitions given in 40 CFR 270.2, as incorporated in 10 CSR 25-7.270, the definitions below apply to this rule:

A. “Draft permit” means a document prepared under paragraph (1)(A)6. of this rule indicating the department’s tentative decision to issue, deny, modify in part or in total, revoke, or reissue a “permit.” A notice of intent to revoke, as discussed in subparagraph (1)(A)5.D. of this rule, and a notice of intent to deny, as discussed in subparagraph (1)(A)6.B. of this rule, are types of draft permits. A denial of a request for modification, total modification, or revocation of a permit, as discussed in subparagraph (1)(A)5.B. of this rule, is not a type of “draft permit”;

B. “Formal hearing” means any contested case held under section 260.400, RSMo;

C. “Permit application” means the U.S. Environmental Protection Agency standard national forms for applying for a permit, including any additions, revisions, or modifications to the forms; or forms approved by the U.S. Environmental Protection Agency for use in Missouri, including any approved modifications or revisions. It also includes the information specified by the department under 40 CFR 270.14–270.29, as incorporated into 10 CSR 25-7.270;

D. “Public hearing” means any hearing on a tentative decision at which any member of the public is invited to give oral or written comments;

E. “Revocation” means the termination of a permit;

F. “Schedule of compliance” means a schedule of remedial measures in a permit, including an enforceable sequence of interim requirements (for example, actions, operations, or milestone events) leading to compliance with sections 260.350 through [260.434] 260.433, RSMo;

G. “Total modification” means the revocation and reissuance of a permit;

H. “Site” means the land or water area where any “facility or activity” is physically located or conducted, including adjacent land used in connection with the facility or activity; and

I. “Variance” means any variation from the Missouri Hazardous Waste Management Law as defined in section 260.405, RSMo.

3. Application for a permit.

A. Any person who requires a permit shall complete, sign, and submit to the department a permit application for each permit required under 40 CFR 270.1, as incorporated in 10 CSR 25-7.270. Permit applications are not required for permits by rule per 40 CFR 270.60, as incorporated in 10 CSR 25-7.270. The department shall not begin the processing of a permit until the applicant has fully complied with the permit application requirements for that permit, as provided under 40 CFR 270.10 and 270.13, as incorporated in 10 CSR 25-7.270. Permit applications shall comply with the signature and certification requirements of 40 CFR 270.11, as incorporated in 10 CSR 25-7.270(2)(A)(B)1., and 10 CSR 25-7.270.

**B. Reserved.**

[B.JC. The department shall review for completeness every permit application. Each permit application submitted by a new facility should be reviewed for completeness by the department within thirty (30) days of its receipt. Each permit application submitted by an existing facility should be reviewed

for completeness by the department within sixty (60) days of its receipt. Upon completing the review, the department will notify the applicant in writing whether the permit application is complete. If the permit application is incomplete, the department will list the information necessary to make the permit application complete. When the permit application is for an existing facility, the department will specify, in the notice of deficiency, a date for submitting the necessary information. The department will notify the applicant that the permit application is complete upon receiving the required information. After the permit application is complete, the department may request additional information from an applicant, but only as necessary to clarify, modify, or supplement previously submitted material. Requests for such additional information will not render a permit application incomplete.

*[C.]D.* If an applicant fails or refuses to correct deficiencies in the permit application, the permit may be denied and enforcement actions may be taken under the applicable statutory provisions of sections 260.350 through *[260.434] 260.433*, RSMo.

**E. If the department decides that a site visit is necessary for any reason in conjunction with the processing of a permit application, the department will notify the applicant and a date will be scheduled.**

*[D.]F.* The effective date of a permit application is the date the department notifies the applicant that the permit application is complete, as provided in subparagraph (1)(A)3.B. of this rule.

*[E.]G.* For each permit application the department will, no later than the effective date of the permit application, prepare and mail to the applicant a project decision schedule. The schedule will specify target dates by which the department intends to –

- (I) Prepare a draft permit;
- (II) Give public notice;
- (III) Complete the public comment period, including any public hearing; and
- (IV) Issue a final permit decision.

*[F.]* If the department decides that a site visit is necessary for any reason in conjunction with the processing of a permit application, the department will notify the applicant and a date will be scheduled.]

*[G.]H.* Whenever a facility or activity requires more than one (1) type of environmental permit from the state, the applicant may request, or the department may offer, a unified permitting schedule that covers the timing and order to obtain such permits, as provided in section 640.017, RSMo, and 10 CSR 1-3.010.

4. *Reserved.*

5. Modification, total modification, or revocation of permits.

A. Permits may be modified in part or in total, or revoked, either at the request of the permittee or of any interested person or upon the department's initiative. However, permits may only be modified or revoked for the reasons specified in 40 CFR 270.41 or 40 CFR 270.43, as incorporated in 10 CSR 25-7.270. All requests shall be in writing and shall contain facts and reasons supporting the request.

B. If the department decides the request is not justified, a brief written response giving a reason for the decision shall be sent to the person requesting the permit modification and to the permittee. Denial of a request for modification, in part or in total, or revocation of a permit is not subject to public notice, comment, or hearing, and is not appealable under section (2) of this rule.

C. Tentative decision to modify.

(I) If the department tentatively decides to modify a permit in part or in total, a draft permit incorporating the proposed changes will be prepared according to paragraph (1)(A)6. of this rule. The department may request additional information and, in the case of a partial permit modification, may require the submission of an updated permit application. In the case of a total permit modification, the department will require the submission of a new permit application.

(II) When a permit is partially modified under this paragraph, only the conditions being modified are reopened. All other conditions of the original permit remain in effect for the duration of the existing permit. When a permit is totally modified under this paragraph, the entire permit is reopened just as if the permit had expired and was being reissued. During any total modification, the permittee complies with all conditions of the existing permit until a new, final permit is issued.

(III) "Class 1 and class 2 permit modifications" as defined in 40 CFR 270.42, as incorporated in 10 CSR 25-7.270, are not subject to the requirements of this paragraph.

D. If the department tentatively decides to revoke a permit, the department will issue a notice of intent to revoke. A notice of intent to revoke is a type of draft permit and follows the same procedures as any draft permit decision prepared under paragraph (1)(A)6. of this rule.

**E. Reserved.**

**F. Reserved.**

**G. Reserved.**

6. Draft permits.

A. Once the technical review of a permit application is complete, the department shall tentatively decide whether to prepare a draft permit, or deny the permit application.

B. If the department tentatively decides to deny the permit application, a notice of intent to deny shall be issued. A notice of intent to deny is a type of draft permit and follows the same procedures as any draft permit decision prepared under this paragraph. If the department's final decision under paragraph (1)(A)15. of this rule is that the tentative decision to deny the permit application was incorrect, the department shall withdraw the notice of intent to deny and prepare a draft permit under this paragraph.

**C. Reserved.**

*[D.]D.* If the department tentatively decides to prepare a draft permit, the department will prepare a draft permit that contains the following information:

(IV) Standards for treatment, storage, and/or disposal and other permit conditions under 40 CFR 270.30, as incorporated in 10 CSR 25-7.270.

*[D.]E.* All draft permits prepared under this paragraph will be accompanied by a fact sheet per paragraph (1)(A)8. of this rule, publicly noticed per paragraph (1)(A)10. of this rule, and made available for public comment per paragraph (1)(A)11. of this rule. The department will give notice of opportunity for a public hearing per paragraph (1)(A)12. of this rule, issue a final decision per paragraph (1)(A)15. of this rule, and respond to comments per paragraph (1)(A)17. of this rule. An appeal may be filed under section (2) of this rule.

*[E.]F.* Prior to making the draft permit available for public comment, the department shall deliver the draft

permit to the applicant for review, as provided in section 640.016.2, RSMo. The applicant shall have ten (10) days to review the draft permit for nonsubstantive drafting errors. The department shall make the applicant's changes to the draft permit within ten (10) days of receiving the applicant's review and then submit the draft permit for public comment. The applicant may waive the opportunity to review the draft permit prior to public notice.

7. *Reserved.*

8. Fact sheet.

A. A fact sheet will be prepared for every draft permit. The fact sheet will briefly set forth the principal facts and the significant factual, legal, methodological, and policy questions considered in preparing the draft permit. The department will send this fact sheet to the applicant and to any person who requests a copy.

B. The fact sheet shall include, when applicable[:]-

The applicant shall publish a notice as a display advertisement in a newspaper of general circulation serving the county or equivalent jurisdiction where the current or proposed facility is located. In addition, the applicant shall publish the notice in newspapers of general circulation serving adjacent counties or equivalent jurisdictions;

(b) A visible and accessible sign. The applicant shall post a notice on a clearly marked sign at or near the facility. If the applicant places the sign on the facility property, the sign

shall be large enough to be read from the nearest point where the public would pass by the site;

(c) A broadcast media announcement. The applicant shall broadcast a notice as a paid advertisement at least once on at least one (1) local radio station or television station. The applicant may employ another medium with the prior written approval of the department; and

(d) In addition to the department, the applicant shall send a copy of the newspaper advertisement to the units of state and local government described in subpart (1)(A)10.C.(1)(d)(j) of this rule.

(II) All notices under this subparagraph shall include:]—

(a) The date, time, and location of the meeting;

(b) A brief description of the purpose of the meeting;

(c) A brief description of the facility and proposed operations, including the address or a map (e.g., a sketched or copied street map) of the current or proposed facility location;

(d) A statement encouraging people to contact the facility at least seventy-two (72) hours before the meeting if they need special access to participate in the meeting; and

(e) The name, address, and telephone number of a contact person for the applicant.

2. Public notice requirements at the permit application stage.

A. Applicability. The requirements of this paragraph apply to all new permit applications for hazardous waste management units and permit applications for renewal of permits for such units under 40 CFR 270.51, as incorporated in 10 CSR 25-7.270. The requirements of this paragraph do not apply to permit modifications, as defined in 40 CFR 270.42, as incorporated in 10 CSR 25-7.270, or permit applications submitted for the sole purpose of conducting post-closure activities or post-closure activities and corrective action at a facility.

B. Notification at permit application submittal.

(I) The department shall provide public notice as set forth in subpart (1)(A)10.C.(1)(c)(i) of this rule, and notice to the appropriate units of state and local government as set forth in subpart (1)(A)10.C.(1)(d)(j) of this rule, that a complete permit application has been submitted to the department and is available for review.

(II) The notice will be published within a reasonable period of time after the department determines that the permit application is complete. The notice must include:]—

(a) The name and telephone number of the applicant's contact person;

(b) The name and telephone number of the department contact person and a mailing address to which information and inquiries may be directed throughout the permitting process;

(c) An address to which people can write in order to be put on the facility mailing list;

(f) The date that the permit application was submitted.

C. Concurrent with the notice under subparagraph (1)(B)2.B. of this rule, the department will place the permit application and any supporting documents in a location accessible to the public in the vicinity of the facility or at the

department's office as identified in the notice.

3. Information repository.

A. Applicability. The requirements of this paragraph apply to all applicants seeking hazardous waste management facility permits.

B. The department shall assess the need, on a case-by-case basis, for a local information repository. When assessing the need for a local information repository, the department will consider a variety of factors, including the level of public interest, the type of facility, and the presence of an existing repository. If the department determines, at any time after submittal of a permit application, that there is a need for a local repository, then the department will notify the facility that it must establish and maintain a local information repository.

C. The information repository shall contain all documents, reports, data, and information deemed necessary by the department to fulfill the purposes for which the repository is established. The department will have the discretion to limit the contents of the repository.

D. The information repository shall be located and maintained at a location chosen by the facility. If the department finds the location unsuitable for the purposes and persons for which it was established, due to problems with the location, hours of availability, access, or other relevant considerations, the department will specify a more appropriate location.

E. The department will specify requirements the applicant must meet for informing the public about the local information repository. At a minimum, the department will require the applicant to provide a written notice about the information repository to all individuals on the facility mailing list.

F. The applicant shall be responsible for maintaining and updating the repository with appropriate information throughout the time period specified by the department. The department may close the repository at its discretion, based on the factors in subparagraph (1)(B)3.B. of this rule.

(2) Appeal of Final Decision.

(B) The applicant or any aggrieved person may appeal to have the matter heard by the Administrative Hearing Commission. To initiate the appeal, the aggrieved party must follow the procedure established in [10 CSR 25-2.020 and] sections 260.395.11 and 621.250, RSMo. Written petitions must be filed within thirty (30) days after the date the final permit decision or approval was mailed or the date it was delivered, whichever was earlier. If the written petition is sent by registered or certified mail, the petition will be deemed filed on the date it was mailed. If the written petition is sent by any other method, the petition will be deemed filed on the date it is received by the Administrative Hearing Commission. The written petition describes the grounds for the appeal and the appeal is limited to issues raised during the public comment period and not resolved in the final permit decision or approval to the applicant's or aggrieved person's satisfaction. Issues included in the written petition outside those raised during the public comment period are not considered; however, the Administrative Hearing Commission may consider an appeal

of a condition in the final permit decision or approval that was not part of the draft permit or proposal and therefore could not have been commented on during the public comment period.

(3) Transporter License.

(A) Issuance or Denial of a Transporter License.

1. Upon receipt of a complete application for a transporter license, the department will determine whether the application conforms to the requirements of sections 260.385 and 260.395, RSMo, and 10 CSR 25-6.263. The department will notify the applicant of its decision to issue, with or without conditions, or deny~~[ing]~~ the license. If the license is denied, the department will specify the reasons for the denial. No license will be issued until the fees specified in section 260.395.1, RSMo, have been paid.

2. The procedure for appealing a license issuance, denial, or any condition of a license is the same as the procedure for appealing a final permit decision under section (2) of this rule.

(B) Revocation of a Transporter License.

1. Transporter licenses may be revoked for the reasons specified in sections ~~[260.379.2,]~~ 260.395.3, 260.410.3, and 260.410.4, RSMo, or for failure to comply with sections 260.395.1(2) and 260.395.1(3), RSMo.

2. The department may initiate proceedings to revoke a transporter license. If the department proposes to revoke a transporter license, it will send a notice of intent to revoke by certified mail to the licensee, specifying the provisions of sections 260.350–~~[260.434]~~ **260.433**, RSMo, 10 CSR 25-6.263, the conditions of the license or the provisions of an order issued to the licensee that the licensee has violated, the manner in which the licensee misrepresented or failed to fully disclose relevant facts, or the manner in which the activities of the licensee endanger human health or the environment or are creating a public nuisance.

3. The procedure for appealing a license revocation is the same as the procedure for appealing a permit revocation under section (2) of this rule. A timely written petition for appeal stays the effectiveness of a license revocation. If a timely written petition for appeal is not filed, the revocation is effective thirty (30) days after the department signs the revocation decision.

(4) Variances.

(A) Applicability. According to section 260.405.1, RSMo, unless prohibited by any federal hazardous waste management act, the Hazardous Waste Management Commission may grant individual variances from the requirements of sections 260.350 to 260.43~~[0]3~~, RSMo, whenever it is found, upon presentation of adequate proof, that compliance will result in an arbitrary and unreasonable taking of property or in the practical closing and elimination of any lawful business, occupation, or activity, in either case without sufficient corresponding benefit or advantage to the people. The commission will not consider any petition for variance that would permit the occurrence or continuance of a condition that unreasonably poses a present or potential threat to the health of humans or other living organisms. The department may require any petitioner for a variance to submit mailing lists and mailing labels to accomplish the public notice requirements of this section.

(B) Evaluation. Upon receipt of any petition for a variance, the department will evaluate the petition to determine whether the request is substantive or non-substantive based upon the effect of the proposed variance on facility operations, types of waste, type and volume of hazardous waste management

units, location of facility, public interest, and compliance history. Variances from generator or transporter requirements will be deemed non-substantive provided all conditions of ~~[sub]section (3)[(A)]~~ of this rule are met.

(C) Substantive Variance. If a variance petition is deemed substantive, the department will –

1. Upon receipt –

A. Mail a notice to all record owners of real property located within one (1) mile of the outer boundaries of the facility, the highest elected official of the county, and the highest elected official of the city, town, or village having jurisdiction over the area where the facility is located; and

B. Issue a news release to the media and publish a legal notice in a newspaper of general circulation serving the area where the facility is located;

2. Within sixty (60) days of receipt –

A. Prepare a recommendation as to whether the variance should be granted, granted with conditions, or denied;

B. Submit the recommendation to the Missouri Hazardous Waste Management Commission;

C. Notify the petitioner of the recommendation;

D. Publish a legal notice regarding the recommendation in a newspaper of general circulation serving the area where the facility is located; and

E. Mail a notice regarding the recommendation to all record owners of real property ~~[adjacent]~~ **adjoining** to the facility, the highest elected official of the county, and the highest elected official of the city, town, or village having jurisdiction over the area where the facility is located; and

3. Request a formal hearing before the Missouri Hazardous Waste Management Commission or a duly appointed hearing officer on the variance petition and the department's recommendation, as provided in section 260.400, RSMo.

(D) Non-Substantive Variance. If a variance petition is deemed non-substantive, the department will comply with paragraph ~~[(5)](4)(C)2.~~ of this rule. The Missouri Hazardous Waste Management Commission will hold a formal hearing as provided in section 260.400, RSMo, if requested by the petitioner. A request for a formal hearing may also be made by any aggrieved person if the department's recommendation is to grant the variance with or without conditions. Any request by the petitioner or aggrieved person for a formal hearing shall be made in writing within thirty (30) days of the date the legal notice regarding the recommendation is published.

(F) Hearing Procedures. Any hearings under this section are a contested case pursuant to section 260.400 and Chapter 536, RSMo. The participants are the department, the petitioner, any aggrieved person who requests a formal hearing, and any person who files a timely application for intervention and is granted leave to intervene. Any person desiring to intervene shall file an application to intervene with the Missouri Hazardous Waste Management Commission secretary within thirty (30) days from the date the legal notice regarding the recommendation is published.

1. The application to intervene shall state the interests of the intervener, the grounds upon which intervention is sought, and a statement of the position that the intervener desires to take in the proceeding. The intervener shall serve a copy of the application to intervene on each of the parties listed in subsection ~~[(5)](4)(F)~~ of this rule.

2. The Missouri Hazardous Waste Management Commission or duly appointed hearing officer will grant or deny the application to intervene pursuant to Rule 52.12, Supreme Court Rules of Civil Procedure. The Missouri Hazardous Waste Management Commission or hearing officer may condition any grant of intervention as the circumstances

may warrant.

**TITLE 13 – DEPARTMENT OF SOCIAL SERVICES  
Division 70 – MO HealthNet Division  
Chapter 20 – Pharmacy Program**

**PROPOSED AMENDMENT**

**13 CSR 70-20.075 340B Drug Pricing Program.** The division is amending sections (1)–(5) and adding section (6).

*PURPOSE:* This amendment simplifies and clarifies the language of the current rule and establishes a carve-out list of medications that are not reimbursable if purchased through the 340B program.

(1) [340B-c] Covered entities that choose to carve-in Medicaid must provide the Health Resources and Services Administration (HRSA) with their National Provider Identification (NPI) and their MO HealthNet Division (MHD) provider number for each site that carves-in for inclusion in the HRSA Medicaid Exclusion File. [The] MHD requires the [MO HealthNet] MHD provider number to be included on the Medicaid Exclusion File to identify providers that carve-in Medicaid and to prevent duplicate discounts. A duplicate discount is defined as a covered entity receiving a discounted drug through the 340B program from the manufacturer, and MHD receives a rebate through the Medicaid Drug Rebate Program from the manufacturer for the same claim. Covered entity is defined in section 376.414.1(2), RSMo.

(2) [340B-c] Covered entities [are required to] must identify 340B-purchased drugs [at the claims level using the following codes:] using the Submission Clarification Code or modifier code on each claim that was 340B-purchased.

[A] Point-of-sale pharmacy claims: Submission Clarification Code (SCC) 20; and

[B] Medical and outpatient claims: Modifier JG or TB.]

(3) Failure to include the appropriate [submission clarification code or modifier] identifier on a 340B-purchased drug will result in [the] MHD collecting a rebate on the claim [and], resulting in a potential duplicate discount. A duplicate discount may subject the covered entity to audit penalties. [The] MHD will deny claims identified as 340B-purchased drugs at the claim level from providers who [submit an SCC of 20 or 340B modifier but have not notified] have yet to notify HRSA of carve-in status.

(4) [Effective July 1, 2021, r] Reimbursement for 340B-identified covered drugs for 340B providers as defined [by 42 U.S.C. 256b(a)(4) and 42 U.S.C. 1396r-8(a)(5)(B)] in section 376.414.1(2), RSMo, who carve-in for Medicaid will be determined by applying the following method:

(A) MHD will reimburse 340B-purchased drugs dispensed by pharmacy providers [will be reimbursed] at their actual acquisition cost, up to the 340B Maximum Allowable Cost (340B MAC) (calculated ceiling price) plus a professional dispensing fee. Covered entities [are required to] must bill no more than their actual acquisition cost plus the professional dispensing fee.

1. [The] MHD defines the 340B MAC (calculated ceiling price) [is defined] as the Average Manufacturer Price (AMP) minus Unit Rebate Agreement (URA) as reported by the Centers for Medicare & Medicaid (CMS) quarterly.

2. [Actual] MHD defines actual acquisition cost [is defined] as the invoice cost for the [NDC] National Drug Code (NDC) per billing unit. This does not include timely pay discounts or discounts paid as a rebate on a separate invoice for volume-based purchases; and].

3. MHD calculates the professional dispensing fee according to 13 CSR 70-20.060; and

(B) MHD will reimburse [P]physician-administered drugs purchased through the 340B program [will be reimbursed] at the lesser of the [p]Physician-[a]Administered 340B MAC or the actual acquisition cost submitted by the provider. [A] MHD does not apply a professional dispensing fee [is not applied] to physician-administered drugs.

1. [The Physician-Administered 340B MAC is calculated by adding six percent (6%), up to six hundred dollars (\$600), to the calculated ceiling price] MHD adds six percent (6%), up to six hundred dollars (\$600), to the 340B MAC to calculate the physician-administered 340B MAC.

(5) [340B contract pharmacies are not covered under this policy and must carve-out Medicaid from their 340B operation unless MHD approves an exception] MHD does not allow 340B contract pharmacies to carve-in under this policy.

(6) MHD may carve-out certain medications and categories of medications from 340B participation for MHD reimbursement. Medications subject to the carve-out will be reimbursed according to 13 CSR 70-20.070. The following medications and categories of medications are carved-out of reimbursement through the 340B program:

(A) Drugs approved by the FDA for the treatment of obesity; and

(B) Cell and gene therapies.

Cell and Gene Therapy	\$2,482,241
Anti-obesity	\$6,023,245

Anti-obesity	\$9,921,519
Total	\$11,645,328
Percentage of claims attributable to Public Covered Entities	18%
Total Estimated Cost for Public Entities	\$2,096,159

**IV. ASSUMPTIONS****Assumptions for both Cell and Gene Therapy and Anti-Obesity estimates**

- The estimated increase in annual expenditures by Covered Entities will be offset by an equal increase in claims payment by MHD, resulting in no net change in profit for the Covered Entity. Savings to the state are realized through increased rebate revenue, which more than offset the increased reimbursement to the Covered Entities.
- Covered Entities bill MHD for 340B-purchased, non-physician-administered medications at the actual acquisition cost.
- Covered Entities have established processes for purchasing 340B and non-340B medications and billing MHD with the appropriate claim level identifier.
  - During SFY24, Covered Entities utilized non-340B stock for MHD participants 23.72% of the time based on paid claims history.
- MHD reimburses providers based on actual acquisition cost reimbursement methodology. If a Covered Entity purchases a medication outside of the 340B program, MHD will reimburse at the higher, non-340B rate, resulting in a higher expenditure by the Covered Entity and with a higher reimbursement by MHD.
- The supplemental rebate that the state would forgo for each 340B claim:
  - Based on the confidential and proprietary nature of the supplemental rebate amounts, MHD utilized the overall weighted average of supplemental rebates for drugs from supplemental rebate agreements in place for April 1, 2024 – June 30, 2024, and actual utilization during the quarter, 32.2% of the total cost per claim.
- To calculate the anticipated impact to public facilities, MHD utilized percentage of 340B claims during SFY24 that were billed to MO HealthNet from public Covered Entities (18%)

**Cell and Gene Therapy assumptions**

- Covered Entities are purchasing cell and gene therapies at the ceiling price when purchased through the 340B program.
- Estimates are based on SFY2024 MHD paid claims data and pricing on the date of service.

**Anti-Obesity assumptions**

MHD does not currently cover drugs approved by the FDA for anti-obesity. MHD utilized the overall average federal rebate percentage to estimate the ceiling price paid by Covered Entities for anti-obesity agents. The federal rebate amounts are confidential and proprietary pursuant to Section 1927 of the Social Security Act (42 U.S.C. § 1396r-8). MHD calculated an anticipated fiscal impact based on the following:

- The estimated number of participants who would qualify for anti-obesity treatment.
- The current utilization of drugs with the same mechanism of action as the anti-obesity treatments.
- The anticipated percentage of participants who would seek treatment, based on a review of other State Medicaid Programs, discussions with MHD providers, and market analysis.
- The percentage of the participants who would receive the anti-obesity drug through a Covered Entity with 340B stock based on the percentage of overall MHD pharmacy claims that are billed as 340B stock by covered entities (10.57% during April 1, 2024 – June 30, 2024).
- Federal rebate to calculate the ceiling price for each 340B claim.
  - Based on the confidential and propriety nature of the federal rebate amounts, MHD utilized the overall average of federal rebates for drugs in place from April 1, 2024, to June 30, 2024, and actual utilization during the quarter, 53.04% of the total cost per claim.

### TITLE 10 – DEPARTMENT OF NATURAL RESOURCES Division 10 – Air Conservation Commission Chapter 6 – Air Quality Standards, Definitions, Sampling and Reference Methods and Air Pollution Control Regulations for the Entire State of Missouri

#### ORDER OF RULEMAKING

By the authority vested in the Missouri Air Conservation Commission under section 643.050, RSMo Supp. 2024, the commission adopts a rule as follows:

10 CSR 10-6.255 is adopted.

A notice of rulemaking containing the text of the proposed rule was published in the *Missouri Register* on July 15, 2024 (49 MoReg 1115-1120). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

**SUMMARY OF COMMENTS:** During the public comment period, the Missouri Department of Natural Resources (the department) received seven (7) comments from the Missouri Agribusiness Association (MO-AG), the U.S. Environmental Protection Agency (EPA), and department staff. The department made changes to the rule text in response to these comments.

**COMMENT #1:** MO-AG and EPA both submitted comments in support of the rulemaking.

**RESPONSE:** The department appreciates the comments in support of the rulemaking. The department made no changes to the rule text in response to these comments.

COMMENT #2: MO-AG commented the acronym CGA should be defined as Compressed Gas Association (CGA). MO-AG also stated that the code incorporated by reference in the rule in subsection (1)(B) should be properly cited as follows: ANSI/CGA G2.1-2023, Requirements for the Storage and Handling of Anhydrous Ammonia, Seventh Edition. MO-AG also suggests consistent terminology referencing this document be used throughout the rule. MO-AG also states the document is published by the Compressed Gas Association, not the American National Standards Institute (ANSI).

RESPONSE AND EXPLANATION OF CHANGE: The department agrees and has updated the citation for the material incorporated by reference in subsection (1)(B) of the rule. After the department made that change, no other rule text changes were needed to ensure consistent terminology referencing that document throughout the rule.

COMMENT #3: EPA suggests adding the words “stationary source” to the applicability section of the proposed rule at 10 CSR 10-6.255(1)(A) so that the rule reads as “this rule shall apply throughout Missouri to stationary source agricultural anhydrous ammonia facilities.”

EPA also states the proposed rule at 10 CSR 10-6.255(1)(D) provides exceptions. 10 CSR 10-6.255(1)(D)2. states that changes to 40 CFR Part 68 described in subsection (3)(A) will apply. Paragraph (3)(A)1. states “The term ‘agricultural anhydrous ammonia facility’ as defined in section (2) of this rule shall replace the term “stationary source” anywhere it appears in 40 CFR 68.” EPA suggests the department edit the proposed language by saying “stationary source agriculture anhydrous ammonia facility.” Without “stationary source,” a strict interpretation could possibly lead to a portable process such as portable reactors used to convert anhydrous ammonia to liquid nitrogen fertilizers being covered at an “agricultural anhydrous ammonia facility.”

RESPONSE AND EXPLANATION OF CHANGE: The department agrees with the intent of this comment, but it is more efficient to address this comment by revising the definition of “agricultural anhydrous ammonia facility” as opposed to changing the term throughout the rule. In response to this comment, the department added the term “stationary source” in front of the term “facility” at the beginning of the definition for the term “Agricultural anhydrous ammonia facility” in subsection (2)(C) of the rule.

COMMENT #4: EPA commented that the proposed rule at 10 CSR 10-6.255(1)(C) incorporates parts of the federal rule promulgated in the *Code of Federal Regulations* at 40 CFR Part 68, as of July 1, 2023. EPA understands the department intends to request delegation of a portion of 40 CFR Part 68 in the future. How will the department update the state rule to accept modifications to 40 CFR Part 68 promulgated by the EPA in the future?

RESPONSE: The department will propose an amendment to 10 CSR 10-6.255 to update the incorporation by reference date if there are future federal amendments to 40 CFR Part 68 that affect the requirements for the sources subject to the state rule. The department made no changes to the rule text in response to this comment.

COMMENT #5: EPA commented that the proposed rule at 10 CSR 10-6.255(1)(B) incorporates CGA-2.1-2023 Requirements for the Storage and Handling of Anhydrous Ammonia, 7th Edition, published February 14, 2023, and does not incorporate any subsequent amendments or additions. How will the department update the state rule to accept updated versions of the CGA standard?

RESPONSE: The department will propose an amendment to 10 CSR 10-6.255 to update the incorporation by reference date if there are future changes to the CGA standard, which is incorporated by reference in the rule. The department made no changes to the rule text in response to this comment.

COMMENT #6: EPA commented that the applicability section of the proposed rule at 10 CSR 10-6.255(1)(A) states that the rule will apply to agricultural anhydrous ammonia facilities, which includes retail agricultural anhydrous ammonia facilities, and distributor or terminal agricultural ammonia facilities. The proposed rule provides a definition of agricultural anhydrous ammonia facility at 10 CSR 10-6.255(2)(C). This definition is important as it provides additional specificity to the facilities covered by the rule. 10 CSR 10-6.255(2)(C) states that an agricultural anhydrous ammonia facility is a “facility that uses, stores, or sells agricultural anhydrous ammonia that meets the threshold quantity of 10,000 lbs. as listed in Table 2 of 40 CFR 68.130, which is incorporated by reference in subsection (1)(C) of this rule. This includes, but is not limited to, retail agricultural anhydrous ammonia facilities and distributor or terminal agricultural anhydrous ammonia facilities.” However, pesticide and other agricultural chemical manufacturing facilities that manufacture and store anhydrous ammonia intended to be used as fertilizer or in the manufacturing of fertilizer sometimes also manufacture and store ammonia as a refrigerant or raw material in other chemical manufacturing. If the department does not intend the applicability to extend to those facilities, the EPA suggests adding modifying language to the proposed definition.

RESPONSE AND EXPLANATION OF CHANGE: The rule does not apply to anhydrous ammonia that does not meet the definition of agricultural anhydrous ammonia, even if the anhydrous ammonia that does not meet the definition is used, stored, or sold at a facility that also uses, stores, or sells agricultural anhydrous ammonia. The rule only regulates the agricultural anhydrous ammonia at these types of facilities, and the federal rule will continue to regulate the other types of anhydrous ammonia at these facilities. In response to this comment, the department has added paragraph (1)(D)3. to clarify that the rule only applies to agricultural anhydrous ammonia at facilities that use, store, or sell both types.

COMMENT #7: Department staff commented to recommend the definitions in subsections (2)(D) through (2)(F) of the rule be listed in alphabetical order.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees with this comment and has revised subsections (2)(D), (2)(E), and (2)(F) of the rule to list the definitions in alphabetical order.

### 10 CSR 10-6.255 Chemical Accident Prevention for Agricultural Anhydrous Ammonia.

(1)Applicability.

(B) The methods of ANSI/CGA G-2.1-2023, Requirements for the Storage and Handling of Anhydrous Ammonia (Seventh Edition), as published February 14, 2023, by the Compressed Gas Association (CGA) are hereby incorporated by reference. Copies of ANSI/CGA G-2.1-2023, Requirements for the Storage and Handling of Anhydrous Ammonia (Seventh Edition), can be obtained from the American National Standards Institute (ANSI), 1899 L Street, 11th Floor, Washington, DC 20036. This rule does not incorporate any subsequent amendments or additions.

(D) Exceptions.

1. Changes to 40 CFR 68 as described in subsection (3)(A) of this rule apply.

2. The provisions of 40 CFR 68.120 are not incorporated by reference in subsection (1)(C) of this rule.

3. Agricultural anhydrous ammonia facilities that also use, store, or sell anhydrous ammonia that does not meet the definition of agricultural anhydrous ammonia are only subject to this rule for the agricultural anhydrous ammonia that is used, stored, or sold at the facility. The anhydrous ammonia that is used, stored, or sold at the facility that is not agricultural anhydrous ammonia is not regulated by this rule.

(2) Definitions.

(C) Agricultural anhydrous ammonia facility – A stationary source facility that uses, stores, or sells agricultural anhydrous ammonia that meets the threshold quantity of ten thousand (10,000) lbs. as listed in Table 2 of 40 CFR 68.130, which is incorporated by reference in subsection (1)(C) of this rule. This includes but is not limited to retail agricultural anhydrous ammonia facilities and distributor or terminal agricultural anhydrous ammonia facilities.

(D) Distributor or terminal agricultural anhydrous ammonia facility – Any facility that is subject to a risk management plan (RMP) Program 3 under 40 CFR 68, which is incorporated by reference in subsection (1)(C) of this rule, and that –

1. Provides agricultural anhydrous ammonia to retail agricultural anhydrous ammonia facilities; or

2. Uses anhydrous ammonia in the manufacture of a fertilizer.

(E) Fertilizer – Includes any organic or inorganic material of natural or synthetic origin which is added to soil, soil mixtures, or solution to supplement nutrients and contains one (1) or more essential plant nutrients.

(F) Retail agricultural anhydrous ammonia facility – An agricultural anhydrous ammonia facility that sells agricultural anhydrous ammonia to end users or applies agricultural anhydrous ammonia to agricultural fields for a fee. Farmers who hold agricultural anhydrous ammonia solely for their own use as a nutrient fertilizer are excluded from this definition.
