### Historical and Biographical Notes

The Board of Public Buildings is the direct successor of the Board of Permanent Seat of Government and an indirect successor of the State Building Commission of the 1930s. All three organizations focused on renovation and construction of state buildings. While the State Building Commission focused on projects funded with Works Progress Administration funding, the Board of the Permanent Seat of Government (1821-1945) and Board of Public Buildings (1945 to present) focused on state-funded projects,

including continuing maintenance of State Building Commission projects. When the current board was created, the Board of the Permanent Seat of Government and State Building Commission were abolished (*Laws* 1945, p. 1428).

The Board of Public Buildings is composed of the governor, lieutenant governor, and the attorney general. The governor chairs the board while the lieutenant governor serves as the secretary. Additionally, the speaker of the House of Representatives and president pro tempore of the Senate serve as non-voting ex officio members. Missouri law (RSMo [8.010](#) and [33.305](#)) provides that the board has general supervision and charge of state facilities at the seat of government. The board also has the authority to issue revenue bonds for the construction of state office buildings and certain other state-owned or rented facilities statewide. The board works with the Division of Facilities Management, Design and Construction in carrying out its responsibilities.

Over the course of its history, minor updates were made to the way the board raises funds and/or acquires land (*Laws* 1957, p. 726, *Laws* 1961, p. 564). Major updates to the board's operations include:

- The creation of the Division of Planning and Construction to partner with the board (*Laws* 1965, p. 126).
- The creation of the Division of Facilities and the move of the Division of Planning and Construction to this division (*Laws* 1995, p. 240).
- Allow the board to utilize money from the [Tobacco Settlement](#) (*Laws* 2002, p. 1099).
- The creation of the Joint Committee on Capitol Security to partner with the board (*Laws* 2016, p. 308).
- The establishment of the 21<sup>st</sup> Century State Capitol Restoration Project to fund the restoration of the State Capitol building (*Laws* 2018, p. 1464). While the State Capitol Commission exists to oversee historic preservation and access for the State Capitol, the Board of Public Buildings has overall supervision of the State Capitol and other government buildings statewide.

## Minutes, 1952-1987

*Extent:* 4.25 Hollinger boxes

*Arrangement:* Chronological

### Scope and Content

This series includes the minutes of the Board of Public Buildings. Minutes until 1968 are short, typically a listing of approved expenses. Minutes 1969-1971 are packets containing minutes or transcripts of the meeting and all supporting documents. The only 1972 minutes are those from minutes book. From 1973-1977 minute books and meeting packets are filed separately. From 1978-1980, there may only be one or two sets of meeting minutes per year, though those minutes indicate other meetings occurred. For 1980, we only have the minutes for a special meeting of the board and not the regular. Additionally, the April, 1979 meeting includes a full transcript in lieu of minutes. From 1981-1985 and 1987 contain minutes only. There are no minutes for meetings 1988 and after.

Minutes from February-May, 1955; July, 1955-December, 1960; and 1986 are missing.

Beginning in 2010, minutes are available on the Board of Public Building's website:  
<https://oa.mo.gov/commissioners-office/boards-and-commissions/board-public-buildings/board-public-buildings-meeting>.
