

**eReader Exploration Grants Awarded
June 2012**

Library users frequently ask library staff to assist them with their eBook readers as they download materials from library and other websites. eReader Exploration grants provide funds to public libraries to help library staff, volunteers and patrons learn about eReader devices through a hands-on experience. This grant allows public libraries who participated in a Missouri State Library eReader training session to purchase several of the more popular and stable eReader devices available on the market today for use in staff, volunteer and patron training.

	Library	Awarded
1	Adair County Public Library	\$2,256
